

GU10 GLASS LED BULB 5W 2700K/4000K/6000K

DESCRIPTION:

The GU10 5W Glass LED Bulb is designed for superior performance and energy efficiency, offering an ideal replacement for 30W halogen lamps. Housed in high-quality glass with excellent thermal dissipation, it delivers consistent, reliable light output. Available in 2700K (warm white), 4000K (neutral white), and 6000K (cool white), this dimmable bulb is compatible with most standard TRIAC dimmers and is perfect for indoor lighting applications such as track lights, recessed fixtures, and display lighting.

FEATURES:

- High-quality glass housing for optimal heat dissipation and airflow
- Dimmable from 100% to 5% with standard TRIAC dimmers
- Instant-on performance with no warm-up time
- Long-lasting COB LED technology
- Consistent light output with CRI 80
- Designed and assembled with reliable, long-life driver IC

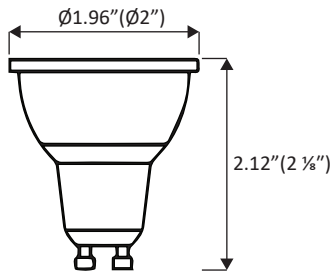

APPLICATIONS:

- Indoor use only
- Track lighting
- Recessed downlights
- Display lighting
